SMART CITY

Smart City benches, solar charging stations

We would like to introduce you to the latest ZANO designs, our smart solar furniture.

The solar furniture is equipped with environmentally friendly, photovoltaic panels which turns the bench into a self-sufficient multimedia center including USB chargers, Wi-Fi hotspot and many other options.

ZANO prides itself on producing modern design using the highest quality materials - our solar furniture is no exception. The photovoltaic panels are protected by a pane of tempered glass to guarantee a long life.

BENCHES

City benches, outdoor seats, loungers, hammocks and more...

ZANO benches have a reputation in the street furniture market for their modern designs and robust construction. They are made using the highest quality materials, making them resistant to all weather conditions.

A variety of designs and modular ranges, such as Domino line, allow you to arrange the space in the way you dreamed of.

BOLLARDS

Bollards, bollard chains, street lamps, traffic sign posts, fences

ZANO posts are made of one single piece of steel or iron, making them very resistant to damage from impact, bending etc.
The range of designs, including minimalist or traditional, allows them to be easily integrated into public spaces for protecting or separating areas.

TREE GUARDS

ZANO is known for producing quality, aesthetic products and for its love of nature. For this reason we now produce tree protection grates made of steel and cast iron. These robust grates, available in many sizes and designs, provide good protection for those important urban trees.

PRODUCT LINES

Universe, Flash, Simple, Origami, Domino, Reliq, Retro and more!

Finally, we hope that you will take the time to familiarise yourself with the ZANO product lines to see how our ranges complement each other.
All of our products work asthetically and add an element of uniqueness to the space where they are situated, due to the quality of the design and workmanship.
